here is lots of text. I have no work experience and no college degree. I I'm not sure why this is written in L^AT_EX,
but why not I guess
I know math

$$x = \frac{-b \pm \sqrt{a^2 - 4ac}}{2a}$$

look, this is in a box
this could be nice for notes

$$\frac{2}{\sqrt{7}e} \pm 8$$

is this monospace
Some more math
box time

$$\int_0^1 \frac{1}{e^x} = \frac{e-1}{e}$$
$$\frac{7}{\sqrt{7}}$$
